- Fundraising Task Force, El Camino College, USA /// 2015, 2016

## Profile

I am a committed and analytical Master's student, who creates relationships easily, which lets me to start working with new people straightforwardly. In other words, these skills help me to be a team player who can also work independently if necessary. I like to learn new things and accept new challenges so that I can grow. I give and take constructive criticism for the same reason. I started my Master's studies in autumn 2020.

## Education

Aalto University, Espoo, Finland ///
